Unlocked Car Entered in Alley Behind 5600 Block of Western Avenue

---

This morning (Friday, May 30), a resident of the 5600 block of Western Avenue discovered that someone had entered his unlocked car during the night. Nothing was taken, but the car had been rummaged through. The car had been parked behind the house in the alley.

Residents are reminded to lock their cars every time they park, remove all valuables from their vehicle, and to leave front and rear outside lights on all night long.
